## DETAILED ACTION

### *Response to Arguments*

1. This office action is in response to applicant's amendment filed 4/30/07. The previous rejection, 35 USC 101 has been removed. Claims 1, 3-6, 10-19 and 28-44 are currently pending.
2. Applicant's arguments, see remarks, filed 1/5/07, with respect to independent claims 1, 28, and 36 have been fully considered and are persuasive.

### *Allowable Subject Matter*

3. Claims 1, 3-6, 10-19, and 28-44 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Ramaswamy et al.

(Ramaswamy US 6,188,976), the improvement comprising clustering every N-items of a corpus into a training unit, wherein resultant training units are separated by gaps, and wherein N is an empirically derived value based, at least in part, on the size of the received corpus; calculating a similarity within a sequence of the training units on either side of each of the gaps, **maximizing** intra-segment similarity and inter-segment disparity.

5. The dependent claims, claims 3-6, 10-19, 29-35, 37-44, are allowed as their parent claims have been deemed allowable.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
